HONORARY PRESIDENTS

"At Guillevin, we have been supporting the Montreal Clinical Research Institute for many years. Continuing for a 4th consecutive year our role as a rallying force for this cause, to which I attach the utmost importance, is a commitment that makes perfect sense because health is our most precious asset. It ensures a creative and developing society. To accelerate discoveries, we have the opportunity to collectively support the research carried out at the IRCM, which will lead to new treatments for the diseases of our time."

LUC RODIER

PRESIDENT AND CEO
GUILLEVIN

"The IRCM has been part of my family history for decades, because of a gene we carry that causes a rare genetic disease, which is passed from one generation to the next. Today, if I'm able to fully live a life worthy of my passions and commitments, it's thanks to the researchers and physicians at the IRCM who follow me and many members of my family on a daily basis. It is an honor for me to be able to contribute to the success of the IRCM Foundation Gala."
